# In-house Permits

We frequently work directly with:

Department of Natural Resources  
Department of Ecology  
Army Corps of Engineers  
National Marine Fisheries Service  
Washington State Dept of Fish & Wildlife  
All shoreline permits at the local agencies  
State Environmental Policy Act  
State Shoreline & Waterfront Building Permits

## Compare Us

Compare our quality, testimonials and prices with that of our competitors. We will meet and exceed your shoreline expectations.

Call today for your free estimate and make sure to ask about Marine Restoration's Shoreline Guided Tour, exhibiting several of our dock builds, shoreline restoration and piling installation.

**web** [www.MarineLLC.com](http://www.MarineLLC.com) | **direct** (425) 576-8661

Marine Restoration & Construction services the Greater Western Washington areas and waterfront vicinities both remote and urban.

## Proficient Permitting Department

With over 20 years of experience we offer a full-service permit department, offering proficient permit progress at the various levels of government. We also provide coordination between architects, structural engineers, biologists, and landscape architects in order to achieve a beautiful end-result desired by the customer. Marine Restoration handles your entire project from start to finish

# Docks

Marine Restoration & Construction offers several material options from *industry standard* to *top of the line*.

**Galvanized Steel Framed Docks** (highest durability & workload rating)  
Zinc coated steel for water resistant use; offering strength, durability and longevity.

**Glulam Beam Docks** (excellent durability & visually pleasing)  
Glulam beams are of equal or greater strength and stiffness and can often be substituted for sawn lumber or steel beams.

**Aluminum Framed Docks** (excellent durability and economical)  
A lightweight and practical, long-lasting option for a economical budget.

**Wood Framed Dock** (durable and inexpensive)  
The standard in dock construction, this option offers a great quality at an affordable price.

## Docks by Marine Resoration & Construction

Our docks are durable, practical, and are both ecologically and bare-foot friendly. Grated surfaces are recommended for and required by local jurisdictions.

Ask one of our representatives about Marine Restoration's alternative decking options.

# Accessories

Additional services and accessories for your dock or waterfront

## Shoreline Design

We design and coordinate the implementation of your shoreline. During the implementation of these new shoreline rules at the local, state and federal levels of government, it is our pleasure to come directly to you with our free initial consultation. Marine Restoration and Construction's shoreline restoration techniques help reverse and stabilize erosion without the use of artificial fill. Resulting in a lack of adverse side effects to your shoreline or beach front. Coordinating with landscape architects and soil engineers for you to help complete the design for permitting and eventual use.

## Boat Roofs and Canopies

Marine Restoration installs eye-catching roofs & canopies designed to your exact specifications.

## Pile Driving & Repair

Offering a quality, durable and subtle piling fabrication, installation and repair.

## Hydraulic Boat Lifts

Custom built and factory order models available for all types and sizes

## Decking, Stairs, Ramps & Gangways

Environmentally friendly, low maintenance decking

## Ladders, Line Cleats and Dock Lighting

With access to an extensive list of proven products We can share with our clients a list of products from 20+ year of experience which help point you in the direction of quality dock safety accessories. Offering a wide range of styles, options, materials and colors. Please ask one of our consultants for a current list of product dock accessories
